WORK EXPERIENCE

Ogitive (Apr 2018 - Aug 2018) - Internship in web development.

PROJECTS

Vivirent (June 2018) - http://vivirent.ogitive.info.

Front-end design, and responsive design of website.

 HTML 5, SCSS, jQuery.

NBA stats (Dec 2018) - https://github.com/djok92/NBA-app

Small app that uses external API for data. Written in Javascript, it uses core principles of language such as: DOM manipulation and creating DOM elements, fetch api, async await, ES6, advanced array methods, event delegation, closures, and more.

HTML 5, SCSS, Webpack and NPM.

Asteroid Tracker (Dec 2018) -

https://github.com/djok92/Asteroid-Tracker

Small app that uses NASA API for fetching data about asteroids that are near Earth. It also shows how many times selected asteroid was in proximity of Earth through history.

Javascript, HTML 5, SCSS, Webpack, NPM.

You can find more projects on my Github profile.
